

UMANG PAWAR

AI Engineer | Generative AI | Full-Stack AI Systems

Nagpur, India | +91 8055070449 | umangpawar629@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

CS graduate (2026) with two production AI systems live at LanceSoft. Built and shipped an ABAC-secured HR Assistant Chatbot used daily by 100+ employees company-wide, cutting HR policy query time to near-zero, and an AI-powered Lead Generation Engine now driving live B2B outreach. Combines backend engineering (FastAPI, PostgreSQL, REST APIs) with applied AI (LangChain, Groq, RAG, ChromaDB, HuggingFace Embeddings) to deliver complete, deployable AI solutions. Published ML researcher. Targeting AI Engineer / Generative AI Engineer roles in Pune, Bangalore, or Hyderabad.

TECHNICAL SKILLS

AI & GenAI: Groq API, OpenAI API, RAG, LangChain, LLM Orchestration, Prompt Engineering, HuggingFace Embeddings, ChromaDB, Vector DBs, NLP/NLG, Scikit-learn, AWS, Azure

Backend & APIs: FastAPI, Flask, Node.js, REST APIs, PostgreSQL, MySQL, MongoDB, SQLAlchemy, ABAC Security,

Languages & Data: Python, JavaScript, TypeScript, SQL, Pandas, NumPy, ETL Pipelines, Web Scraping (BeautifulSoup, Selenium)

Frontend & DevOps: React.js, Vite, Tailwind CSS, HTML/CSS, Git, GitHub Actions (CI/CD), Docker, Railway, Render

PROJECTS

HR-PolicyIQ — ABAC-Secured HR Assistant Chatbot

2026 | Production @ LanceSoft

FastAPI · Groq API · LangChain · RAG · ChromaDB · ABAC · PII Redaction · React

- Architected a production HR automation platform secured with ABAC across 6+ HR modules — adopted by 100+ employees company-wide at LanceSoft, cutting HR staff time on repetitive policy queries to near-zero.
- Built end-to-end LLM pipeline: document ingestion → HuggingFace embedding → ChromaDB retrieval → grounded Groq (Llama 3) answers with source citation and PII redaction, gated by ABAC permissions.

Lead Generation Engine — AI-Powered B2B Outreach

2026 | Production @ LanceSoft

Python · FastAPI · BeautifulSoup · Selenium · LLM Enrichment · PostgreSQL

- Automated pipeline scraping HR, manager, and decision-maker contacts; LLM-enriched profiling produces structured exportable outreach lists — now the backbone of LanceSoft's live B2B outreach workflow.

Atlas-AI — AI Career Platform

[Live Demo](#) 2026

FastAPI · React.js · Groq API · LangChain · HuggingFace Embeddings · RAG

- Built four integrated AI systems from scratch: daily job scraper for live listings, ATS resume scorer against target JDs, LLM-powered voice mock interview engine with dynamic follow-ups, and a RAG-based career chatbot — all unified into a single deployed full-stack product.

FinSight — AI Financial Intelligence Platform

[Live Demo](#) 2026

FastAPI · Groq API · LangChain · RAG · ChromaDB · FAISS · React · Vite · Tailwind

- Upload financial reports → grounded cited LLM answers in <2s via Groq + LangChain RAG + FAISS; resolved 6 production bugs (pydantic, deprecated models, Railway \$PORT, CORS) — full MLOps ownership, live on Railway.

WORK EXPERIENCE

AI Engineer Intern | LanceSoft

Jul 2026 - Present

- Engineered the Policy module for HR-PolicyIQ — document upload with metadata, in-app viewing, and version/supersede workflows — adopted as the company's system of record, actively used by 100+ employees.
- Designed and shipped an AI-powered Lead Generation Engine identifying HR and decision-maker contacts at target companies, directly powering live B2B business development outreach.
- Owned both systems end-to-end — requirements through deployment — pairing FastAPI/PostgreSQL backend with applied LLM engineering (RAG, embeddings, prompt design).

Data Analyst Intern | CarrierDomain

Mar 2026 - Jun 2026

- Built automated ETL pipelines (Python, Pandas, SQL) processing 637,494+ live client records into ML-ready datasets, streamlining data prep for downstream analytics.
- Designed and shipped an Enrollment Performance Dashboard with KPI reporting and segmentation — adopted by stakeholders as the primary tool for weekly decision-making.

Software Developer Intern | Syncsas Technologies

Nov 2025 – Mar 2026

- Shipped 3 client-facing full-stack features (Python, Flask, PostgreSQL) with zero post-release defects across Agile sprint cycles.
- Implemented CI/CD pipelines via GitHub Actions, cutting manual deployment steps by 60% and accelerating release velocity for the team.

EDUCATION & CERTIFICATIONS

B.Tech, Computer Science & Engineering — G.H. Rasoni University, Nagpur

Jun 2026

HSC (Science) — Prerna Junior College, Nagpur | 81%

Mar 2022

Certifications: Google AI Professional Certificate (2026) | Published ML Researcher — IJRASET (2025)
