

UMANG PAWAR

AI Engineer | Generative AI | Full-Stack AI Systems

Nagpur, India | +91 8055070449 | umangpawar629@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

AI Engineer with hands-on experience shipping production AI systems: built and owned an ABAC-secured HR Assistant Chatbot (RAG, LangChain, Qdrant, Groq/Llama 3) deployed to 100+ employees at LanceSoft and later packaged into a client-facing knowledge-bot product, plus an AI-powered Lead Generation Engine adopted org-wide by the CTO, managers, and HR for live B2B outreach. Strong backend foundation (FastAPI, PostgreSQL, Redis, REST APIs) paired with applied LLM engineering (RAG, embeddings, prompt design, reranking). Published ML researcher (IJRASET, 2025).

TECHNICAL SKILLS

AI & GenAI: Groq API, OpenAI API, Retrieval-Augmented Generation (RAG), LangChain, LLM Orchestration, Prompt Engineering, Reranking, HuggingFace Embeddings, Qdrant, ChromaDB, FAISS, Vector Databases, NLP/NLG, Scikit-learn, AWS, Azure

Backend & APIs: FastAPI, Flask, Node.js, REST APIs, PostgreSQL, Redis, MySQL, MongoDB, SQLAlchemy, ABAC Security

Languages & Data: Python, JavaScript, TypeScript, SQL, Pandas, NumPy, ETL Pipelines, Web Scraping (BeautifulSoup, Selenium)

Frontend & DevOps: React.js, Vite, Tailwind CSS, HTML/CSS, Git, GitHub Actions (CI/CD), Docker, Railway, Render

WORK EXPERIENCE

AI Engineer Intern | LanceSoft

Jul 2026 - Sep 2026

- Architected an ABAC-secured HR Assistant Chatbot (HR-PolicyIQ) using RAG, LangChain, Qdrant, and Groq (Llama 3); deployed internally to 100+ employees and later packaged into a knowledge-bot product sold to an external client.
- Cut chatbot response latency from 5-6s to 1-1.5s through embedding caching and retrieval pipeline optimization; reduced hallucinated answers using a reranker with confidence-scored, source-grounded retrieval.
- Designed a multi-stage pipeline for the Lead Generation Engine: query/JD processing, contact retrieval, pgvector-based candidate matching and scoring, and routing across processing stages; shipped to production and adopted org-wide by the CTO, managers, and HR for live B2B outreach.
- Engineered the Policy module for HR-PolicyIQ (document upload with metadata, in-app viewing, version/supersede workflows) and owned both systems end to end, from requirements through deployment, pairing a FastAPI/PostgreSQL and Redis backend with applied LLM engineering (RAG, embeddings, prompt design).

Data Analyst Intern | CarrierDomain

Mar 2026 - Jun 2026

- Built automated ETL pipelines (Python, Pandas, SQL) processing 637,494+ client records into ML-ready datasets.
- Designed an Enrollment Performance Dashboard with KPI reporting and segmentation, adopted by stakeholders for weekly decision-making.

Software Developer Intern | Syncsas Technologies

Nov 2025 - Mar 2026

- Shipped 3 client-facing full-stack features (Python, Flask, PostgreSQL) with zero post-release defects across Agile sprints.
- Implemented CI/CD pipelines via GitHub Actions, cutting manual deployment steps by 60%.

PROJECTS

Atlas-AI: AI Career Platform | [Live Demo](#) 2026

- Built four integrated AI systems: a JSearch-powered daily job scraper, an ATS resume scorer against target job descriptions, an LLM-powered voice mock interview engine with dynamic follow-ups (cut interview response latency from 3-4s to 1-2s), and a RAG-based career chatbot unified into one deployed full-stack product.

FinSight: AI Financial Intelligence Platform | [Live Demo](#) 2026

- Built a RAG pipeline (Groq, LangChain, FAISS) answering questions on uploaded financial reports with cited sources in under 2 seconds; resolved deployment and dependency issues (Pydantic, model versions, Railway config, CORS) for full MLOps ownership, live on Railway.

Closira: AI Customer Support Workflow (Technical Assessment) | [GitHub](#) 2026

- Built a 4-stage LLM pipeline in Python (Groq API, Llama 3.3): SOP-grounded FAQ answering, structured lead qualification, two-layer escalation detection (keyword pre-check plus model self-reported tags), and end-of-session conversation summarization, with documented prompt design and trade-offs.

EDUCATION & CERTIFICATIONS

B.Tech, Computer Science & Engineering, G.H. Rasoni University, Nagpur | Jun 2026

HSC (Science), Prerna Junior College, Nagpur | 81% | Mar 2022

Google AI Professional Certificate (2026) | Google AI Essentials Certificate (2026) | Research Publication: IJRASET (2025)
